It’s time to take a stand against discrimination.

207 against 377

The ‘207 against 377’ campaign protests the December 2013 Supreme Court judgment that upheld Section 377 of the Indian Penal Code and re-criminalized homosexuality. The initiative is an effort to raise awareness and influence the ongoing legal process to ensure rights protection and dignity for LGBT Indians.

The campaign brings together the 207 organisations implementing the Pehchan programme on a common platform to undertake advocacy against the judgment at national, state and district levels.

Pehchan is a five-year programme that strengthens the capacity of community-based organisations to provide HIV prevention and other services to improve the health and wellbeing of more than 450,000 men who have sex with men (MSM), transgenders and hijras in 17 Indian states. It is implemented by India HIV/AIDS Alliance in consortium with the Humsafar Trust, SAATHII, Pehchan North Region Office, Sangama, Alliance India Andhra Pradesh, and SIAAP.
